People Analytics | HR Analytics | Workforce Planning

Leeds, United Kingdom | olajumokemedunoye@gmail.com | linkedin.com/in/olajumoke-medunoye | olajumokemedunoye.github.io

SUMMARY

HR professional turned people analyst, with an MSc in Human Resource Management, Associate CIPD membership and the MHRAP certification. Over 8 years of work in banking, customer operations and HR analytics. I build HR reporting in SQL, Excel and Power BI, and at 10Alytics I automated recurring HR reports, cutting reporting turnaround by 60%. Looking for People Analytics, HR Analytics and Workforce Planning roles in the UK.

SKILLS

- Analytics and BI: SQL (PostgreSQL), Power BI, DAX, Power Query, Excel, Python (pandas, scikit-learn), data modelling, data validation
- People analytics: workforce planning, headcount reporting, attrition and retention analysis, cost of turnover, recruitment analytics, HR KPIs
- HR data: HRIS data cleaning and governance; data from Workday, SAP SuccessFactors and BambooHR

EXPERIENCE

HR Analyst Consultant, 10Alytics.io (Remote) | Nov 2024 to Present

- Built Power BI dashboards that automate recurring HR reports, cutting reporting turnaround by 60%.
- Run workforce, retention and attrition-driver analysis for HR stakeholders.
- Clean, check and model HRIS data in SQL (PostgreSQL), Excel and Power BI.
- Maintain headcount and workforce-planning KPI dashboards for senior managers.

Customer Service Advisor, Conduent (Leeds) | Jul 2023 to Present

- Handle a high volume of customer contacts against SLA and quality targets.
- Track CSAT, average handle time and first-contact resolution, and flag trends in the data to team leads.

Customer Success Team Lead, Tangerine Africa (Nigeria) | Jan 2019 to Mar 2023

- Led and coached a team of 36 Customer Success staff.
- Built KPI dashboards that gave leadership a live view of team performance, and standardised team reporting.

Customer Service Associate, Wema Bank Plc (Nigeria) | Nov 2017 to Dec 2018

- Handled account management, complaints, BVN updates and card issuance in a regulated bank.
- Processed e-dividends, statements and client correspondence.

PROJECTS

Full reports for each project: olajumokemedunoye.github.io

- Workforce Planning (Power BI, DAX): attrition by department and role on case-study data, with a what-if slider showing hires needed at different retention targets.
- Attrition and Cost of Turnover (Power BI, Power Query): leaver rate and tenure at exit for a 1,000-person case-study workforce, with an adjustable turnover-cost estimate.
- Recruitment Cost and Hiring Routes (Power BI): external versus internal cost per hire and the saving from a higher internal-hiring share.
- Attrition Risk Model (Python, scikit-learn): logistic regression on the IBM HR sample dataset, test ROC AUC 0.79, with fairness and responsible-use notes.
- UK Gender Pay Gap and UK Labour Market (SQL, Python): benchmarks built from gov.uk and ONS public data.
